	Abstract	The work contains an analysis of the available information dealing with the diversity of algae from Danube Delta Biosphere Reserve (DDBR) and a checklist of the phytoplankton species recorded till 2008 in the DDBR.
	Creation date	2009-02-10
	Publication date	2009-09-15
	Last revision date	2009-06-30
	Lineage	The algae records were analyzed and the validity of the species was verified using European and American databases and different scientific publications. All taxa are listed according to references sources into the angle brackets. The checklist comprises the accepted scientific names and excludes a variety of species.
